# Captain Facing Trial for Murder in Fritzi Mann Case Blames "Fool Altruism"

**OF THE  
MENES CULPT**

Expect to Establish Alibi at the Proper Time

SAN DIEGO, Cal., March 22.—  
David Kerner, a pretty girl on a  
vacation by way of Iowa.

Dr. Louis L. Jacobs, 36, dermatologist  
in the United States Public  
Health Service at Camp Kearney,  
will seek to persuade a jury this was  
his sole role in the case of Fritzi  
Mann, for whom he has been  
indicted and will go to trial  
March 6.

"Damned fool altruism," he says,  
accounted for his interest in the attractive  
20-year-old cabaret dancer whose  
half-clad body was found on the lonely  
Torrey Pines beach Jan. 15.

For the circumstances shaping the  
tragedy and for any act leading to her death the army physician has  
strongly disclaimed guilt.

**Case Circumstantial.**

The case against him, so far as it has been divulged by District Attorney Kempler, is wholly circumstantial. He expects to establish an alibi "when the proper time comes."

**CHRONOLOGY OF MANN  
MURDER MYSTERY**

Jan. 14.—Fritzi Mann, cabaret dancer, left home in San Diego ostensibly for a house party at Del Mar, California beach resort.

Jan. 15.—Her body discovered on Torrey Pines beach.

Jan. 16.—Authorities declare case one of murder.

Jan. 17.—Autopsy reveals in girl's condition probable motive for crime.

Jan. 18.—Dr. Luis L. Jacobs arrested and held for investigation.

Jan. 22.—Dr. Jacobs secured his release on writ of habeas corpus.

Jan. 23.—Dr. Jacobs re-arrested under grand jury indictment charging him with Miss Mann's murder.

March 26.—Date of scheduled trial.

Prosecution is based on the theory that Miss Mann was stunned by a blow to the head and was then cast into the sea where she drowned after brief revival.

She had spent the early part of the previous evening with a man at the Blue Seal cottages in La Jolla.

The two arrived in a closed car and were registered by E. A. Kern, proprietor, as man and wife under fictitious names.

Kern had scrutinized the woman carefully and identified her readily. About the man he was less certain.

Miss Mann and her escort left, cabin for an hour, returned and left again for good. Kern will tell the jury.

**Possessions Scattered.**

The spot where the body was found is 10 miles away. On the road, apparently scattered in flight, were

## SUSPECT WOMAN IN GIRL'S DEATH

Clue to Female Sampson is Believed Unearthed

NEW YORK, March 22.—Possibly that a woman—not any of the various men suspects—murdered Dorothy King, pretty artist's model, was being considered by authorities investigating the mystery today.

The model was found a week ago, having been killed by chloroform pressed to her nostrils and her little dog had been strangled.

A week's investigation finds the authorities admitting the young no evidence against any of the men—but belief grew today that behind the shield of open search for the malefactors of Miss King, police and detectives have trailed a woman, powerful enough to have twisted the model's wrist and held the chloroform-soaked cotton to her nose until she died.

The belief today was that Miss King's friendship for certain men had aroused the furious anger of a woman acquaintance and that the latter may prove to have been the real slayer.

**ACCUSE WIDOW**

Mrs. Buzzi Arrested After Schneider Murder

NEW YORK, March 22.—Mrs. Anna Buzzi was arrested today on a charge of homicide, in connection with the murder several weeks ago of Frederick Schneider, wealthy Bronx contractor. Her brother was held as a material witness.

He admitted, according to the police, that he gave Mrs. Buzzi a revolver two days before the murder.

**AGED TAX ASSESSOR DROPS DEAD AT DALLAS**

DALLAS, Texas, March 22.—W. H. Knight, 75, civil war veteran and former member of the state board of pardons, dropped dead in the anteroom of the 68th district court house here today. Knight, who served several years as tax assessor and collector in Hill county, was acting as a temporary health in the court when he suddenly succumbed.

the building, vanity case and kissers of the dancer and a blanket from the Blue Seal cottage.

That the pretty entertainer was the victim of her own popularity is the opinion of the autopsy testimony. She had lured someone not wisely but too well, according to surgeon.

And it was in worry of the consequences that she consulted him, declared Dr. Jacobs. He had, he admitted, advised her about a contemplated operation which was to have taken place a few days after the sea solved her problem. He had also arranged for a nurse, police may.

"I am a friend of the dead girl," the army man told officers the day investigation started. "She had recently confided in me. Told me she was secretly married. I want to do what I can to help clear the mystery."

Dr. Jacobs was arrested, released on a writ of habeas corpus, and then severely indicted two weeks later after Chief of Police Patrick had said to him, "I'm not at all satisfied with what you have told me."

The weakness of the state's case is the professed inability of E. A. Kern positively to identify Jacobs as the man who occupied his cottage with Miss Mann.

Dr. Jacobs' defense weakness lies in failing thus far to substantiate with witnesses his claim that he was at the Grand Hotel during the hours fixed by investigators as the death period.

And friends are strongly aligned behind the Camp Kearney captain and the trial promises to be one of the bitterest contests ever fought in San Diego courts.

Fritzi Mann was born in Austria of Polish-Hungarian parents. She lived in Denver from childhood until about two years ago, when she came to San Diego and Los Angeles.

Jan. 15.—Her body discovered on Torrey Pines beach.

Jan. 16.—Authorities declare case one of murder.

Jan. 17.—Autopsy reveals in girl's condition probable motive for crime.

Jan. 18.—Dr. Luis L. Jacobs arrested and held for investigation.

Jan. 22.—Dr. Jacobs secured his release on writ of habeas corpus.

Jan. 23.—Dr. Jacobs re-arrested under grand jury indictment charging him with Miss Mann's murder.

March 26.—Date of scheduled trial.

## INTIMIDATED BY SEVEN PURIFIERS

Woman Testifies in Suit Against Cult Chief

GRAND RAPIDS, Mich., March 22.—Seven purifiers of the House of David attempted to intimidate her when she desired to leave the colony.

Mrs. Ella B. Penn, of Cleveland, testified today in John W. Hansel's divorce suit against the institution.

When a man relative announces his engagement, one goes immediately to call upon his fiancee.

In large cities neighbors seldom call upon each other, but in the country and small places older residents should call upon newcomers.

REV. BOST RETURNS

REY J. W. Bost has returned from Wolfe City, where he accompanied the body of Dr. W. F. Jernigan and conducted the funeral services in that city. Dr. Jernigan was an elder in the Nazarene church, of which Rev. Bost is pastor.

**CONVICT AFFLICTED  
WITH RABIES ESCAPES**

AUSTIN, Texas, March 22.—Rangers and local officers were searching today for a Mexican convict who with four other prisoners had been recently brought to light from the Blue Ridge State Penitentiary at the Poston institute for treatment at the Poston institute against rabies, and who escaped this morning. The Mexican was held term. The five convicts, including the man, were taken to the Blue Ridge farm, and their three children were taken by mail dog, and all were brought to the Poston institute for treatment.

The purifiers would have succeeded but for my inflexible determination that I could no longer live in the colony," she said.

Mrs. Penn said she went to the house with her former divorced husband, George Boskey, and her daughter Helen in 1903 and remained for almost a year.

"When I decided to leave, King Benjamin Purcell told me the devil had me blinded," Mrs. Penn testified.

Mrs. Penn said her first husband is still a member of the colony.

"I did not see my daughter until last Christmas," Mrs. Penn testified. "She told me of her stay at the colony and said Benjamin had made improper advances to her. She told me she was married in 1919 with six other couples."

## LONGHORN BAND WINS PLAUDITS

Crack 'U' Organization Puts  
On Musical Treat

Introducing varsity's newest jazz orchestra, "The Stepping Stones from State," the Longhorn band and varsity entertainers from the University of Texas appeared in concert last night at Franklin auditorium, before a crowded house composed of Port Arthur "teex" and music lovers generally.

The first part of the program was given over to classical selections by the band, under the direction of Burnett, Pharr, and instrumental solos.

The band numbers included "Battle of Shiloh" by Barnhouse; a selection from "Faust" by Gounod; "King's Serenade," and "The Opera Mirror" by Roland. Each number was given in a manner that reflected skill on the part of each member.

Among the instrumental solo numbers were "Arietta," a selection from "Pompeii" by Frank Meadows, a flute solo, "Nellie Gray" by Harold A. Cory, and a horn solo, "Artist's Polka" by Walter Lee Newsom.

A sketch of frat house life featured the second part of the program, and much college humor was injected in the skit by the varsity entertainers. The costuming was especially amusing and the settings were appropriate for the sketch, "No Squees-Aloud," which furnished several quarter numbers by Harold Broome, Frank Meadows, Dan Gibson and C. W. Fletcher, who proved one of the hits of the evening.

Mrs. Dorothy (Dotti) DuMars and J. Vernon (Jaybird) Thomas appeared in another act, "One Womerman Night." Miss DuMars is a piano and vocal soloist of much talent. Young Thomas is a juvenile artist with a remarkable voice and was loudly encouraged.

BY NELS OLSON

ST. PAUL, Minn., March 22.—When the band poked his gun into my ribs I felt safe enough. But when in the next instant I decided to brush his gun aside it never occurred to me I might be successful.

As I swung my arm down on the revolver while the bandit looked me in the eye, I expected instant death and I involuntarily held my body rigid to receive a bullet.

I had a reckless feeling, much like that of a poker player who risks his last handful of chips on a pair of beros—only more intense. Meanwhile my body was as cold as ice.

When I realized I was still alive, a wave of elation swept through me.

ARBITRATE FT. WORTH

LIVESTOCK RATE CASE

FT. WORTH, March 22.—The livestock rate war in progress before G. N. Dogan, of the rates and charges division of the packers and livestock administration, holding an investigation here will be arbitrated, it was indicated today.

Finally they succeeded in overcoming him until the arrival of Constable Tom Wells. Complaints of injury were filed against the man,

who is to be tried today.

Both sides known to have agreed to the trial, the third trial will be held at Bastrop, the case having been sent to Bastrop county on a change of venue. The jury in the Nimitz case was completed late yesterday and examination of witnesses began today.

**EX-OFFICIAL OF HOUSTON  
P. O. IS GIVEN 15 MONTHS**

HOUSTON, Texas, March 22.—G. F. Forester, former treasurer of the Houston postoffice, was sentenced to 15 months in the Atlanta penitentiary in federal court here yesterday following his conviction on charges of embezzlement.

**REV. BOST RETURNS  
FROM WOLFE CITY**

Rey J. W. Bost has returned from Wolfe City, where he accompanied the body of Dr. W. F. Jernigan and conducted the funeral services in that city. Dr. Jernigan was an elder in the Nazarene church, of which Rev. Bost is pastor.

## 'SCARED OF GUN,' SAID HENDERSON

**Confesses Killing Salesman Over Attorney's Objection**

CHICKASHA, Okla., March 22.—"I was scared. I thought he had a gun."

That was the answer given by Arthur L. Henderson, when asked by Judge Chan Jones, after the alleged confession, why he killed William H. Prevert, Oklahoma City traveling salesman.

"Did you kill him for his car?" the judge asked.

"No, sir."

"Then why did you kill him?"

"I got scared. I thought he had a gun."

His alleged confession late yesterday evening was made over the protest of his attorney who claimed the man had been intimidated. In answer to the judge's questions he stated that he had not been intimidated and that he had not been promised a light sentence if he confessed.

Henderson was to be sentenced today.

Prevert was murdered and his car taken near Blanchard, Okla. His body was found in a canyon near there Jan. 27.

Henderson and six others were apprehended at Bridgeport, Texas, several weeks later and brought here. Four were released to Kansas authorities on other charges. Henderson is the only one against whom murder charges were preferred.

Ira Bond, Henderson's uncle, was later arrested and held for investigation. He succeeded in proving that he was many miles from where the murder was committed at the time.

**Texas Official to Bring it Before Legislature**

AUSTIN, March 22.—Chas. E. Baughman, commissioner of warehouse and markets, left today for Dallas to meet with the Texas Cotton Men's association, and to also have a conference with the Warehouse Men's association.

"There is much activity noted since the enactment of the Leinen-Capper measures by the 67th congress on the part of the producers," Baughman said. "Texas, never a follower, but a leader, is expected to be one of the first states in the union to completely prepare to secure benefits from the enactment of these laws."

Baughman said the special session of the legislature will be called upon to pass a rural credit aid bill to conform to the provisions of the rural credit bills passed by the recent congress.

## FOUR SUICIDES, ONE DEAD AND ONE IN ASYLUM IS REVEALED BY DEATH PACT IN WHICH DOPE WAS BLAMED

By United Press.

CHICAGO, March 22.—The history of how all but one of a once prominent family have been wiped out through the drug evil, was revealed here today with the murder of Mrs. Ella Woolson, 62, and suicide of her daughter, Mrs. Edna Robinson.

Notes found when authorities broke into the room where the two bodies were lying, told of a death plot reached when the two women were to be separated because of use of drugs.

Mrs. Robinson had cut her mother's throat with a razor and then slashed herself.

Numerous tell-tale marks of the hypodermic needle were found on wrists of both bodies.

The tragedy culminated years of fruitless struggle against narcotics.

Twenty-five years ago Mrs. Woolson's husband, Dr. Chas. Woolson, a leading physician of Buffalo, N. Y., killed himself. His wife came to Chicago with her three children.

A few years later, Howard, the youngest son, committed suicide. No reason for the deed was given at the time.

Edna, the only daughter, married J. A. Robinson, a merchant. Their first child died, poisoned from drugs, from nursing at its mother's breast.

Robinson a year ago was sent to the Kirkbride asylum a raving maniac from the use of opiates.

Another son, William, married and moved away, leaving his mother and sister in the home where they were found dead last night. Dope, he said, was behind the family tragedy from the time of his father's suicide.

**THE WOMAN HE MARRIED**

"The Woman He Married," playing today at the Pearce theater, with Anita Stewart as the star, makes a very interesting story of an artist's model whose marriage to a millionaire's son brings down upon the pair the wrath of the irate father.

ATLANTA, Ga., March 22.—For

Would you live in Georgia?

Would you marry a Georgia girl?

That question was put up to

Manwell Duke

## YOU AND I

## CALLAN ON THE ROAD

James Callan of Menard is on the road again. He is a ranchman and livestock producer. He is a typical cowboy with a Celtic tongue that is silvery at times and at other times as vitriolic as a virile nature can make it.

He is a former president of the Texas Cattle Raisers association and has been active in livestock circles for years. Not many years ago those engaged in the livestock industry promised to make him governor some day as he had a powerful following and was influential in the counsels of the Texas democracy.

James Callan appeared at the El Paso meeting of the Texas Cattle Raisers association and, as usual, his remarks were jument, his gestures theatrical, and his climaxes applause producing.

Texas cowmen were hit hard by the deflation policy of the Federal Reserve bank. Those who had paid \$80 for a steer saw the price slump to \$30. This called for a loss per head of \$50. Hundreds faced bankruptcy. Many were wiped out entirely.

Deflation hit them hard. They were the owners of frozen assets with no commercial fire to thaw the assets. The market had gone to the devil as one of them said. Now they are coming back.

There is a demand for meat stiffs. Cheap meat is a thing of the past, but these cattle raisers have memories. They never forget.

William Gibbs McAdoo made a masterful speech when asked to address the Texas cowmen in convention assembled. He held the Harding administration responsible for the deflation losses sustained by the producers of the country.

On the other hand, the "transportation problem" may be merely the winking of railroads that run on tracks. We may be on the verge of freight and passenger traffic in the air. Stage coach system became inadequate just before steam railroads arrived.

## ELECTRIC

One out of every four tons of coal mined in America is consumed by the railroads.

Obviously, the first logical step to end coal shortages would be to electrify the roads. This would save coal. Also it would release thousands of cars now tied up hauling coal to points where it is stored until locomotives take it aboard.

Callan was sore in 1920. He was not alone. There were thousands of livestock producers as sore as Callan. They had damned W. P. G. Harding, then president of the Federal Reserve board for the deflation policy which caught them in the air and left them in the dumps. Harding of Alabama is a democrat. He was damned from the southern coast to the Pacific coast by democrats.

Callan heard McAdoo's address. He took issue with the statement that the Harding administration was responsible for the deflation policy inaugurated by the Federal Reserve bank. He declared that all the members of the Federal Reserve board were appointees of Woodrow Wilson, that Secretary of the Treasury David F. Houston originated the deflation policy, that Houston was a democrat and a democratic administration was responsible for the losses sustained by the cowmen and sheep men of America when the fearful slump in prices sent thousands of men upon the rocks of disaster.

Callan placed before his hearers old wine in new bottles. This was an issue in the campaign of 1920 and thousands of democrats who held their party administration responsible for the deflation policy and losses of the produce were followers of Joseph Weldon Bailey in that campaign.

Bailey asked for the repudiation of the Wilson administration and most of the policies of the administration. He lost, but thousands went down with him in defeat.

This is a world of change. There are Arab boy scouts in Jerusalem! Later along the Arabs will be playing baseball and lawn tennis.

## PUBLIC HANGINGS BANNED

Senator J. W. Thomas of Bell county is responsible for the electric chair in Texas. Electrocution will supplant the noose and gallows in Texas from now on. Two San Antonio slayers, a negro and a Mexican, will be the first to try out the electric chair. Public hangings have been banned. They should have been banned years and years ago.

Jack Pickford is the latest Hollywood sensation. He was summoned before a federal grand jury to tell what he knew about a coast-wide conspiracy to violate the Volstead act. When it is not Hollywood on the front page, it is Chicago. Their morons run neck and neck.

## WHERE IS HIS SHOT GUN?

A Mississippi congressman is on the rack. He has been sued for defamation of character by a Mississippi preacher. All that the congressman said during the campaign was to ask the voters to investigate the allegation that a certain person was of mixed blood. This isn't cause for libel in Mississippi. It is an invitation for the offended party to take down his trusty Winchester and shoot, shoot, shoot. Gone are the good old days.

Mexico reports a famine cotton crop in 1922. Statistics for 1922 show production of 95,548; for 1921, 126,000 bales. And the boll weevil is blamed. Williamson county produced more cotton in 1922 than the entire output of the Mexican cotton belt.

## MORE BUNK

Representative Cordell Hall of Tennessee is chairman of the democratic national committee. Both branches of the Tennessee legislature adopted a resolution commanding Chairman Hall to the democracy of the nation "for our next president." This drew a response from the chairman. He said he cherished the resolution as a personal tribute but could give it no encouragement or approval. Modest man. He knew it was bunk. And he side-stepped the offering.

## ANOTHER SPEED LAW

Motorists are reminded that the 38th legislature enacted a measure fixing maximum speed of autos on highways at 35 miles an hour or an increase of 10 miles an hour. This is for the safe and sane motorists and not for the wild ones who love to stop on the gas and fly along at the rate of 60 to 75 miles an hour. It goes without saying that the wild ones should be jailed and kept in jail until they are amenable to reason and bow to the laws of the state.

## POOR OLD ORIENT

Kansas lawmakers by a vote of 62 to 52 defeated the bill to remit taxes of the Orient railroad in Kansas. Oklahoma lawmakers passed a bill to remit the taxes of the Orient in Oklahoma. Now, the Orient may be compelled to quit running trains in Kansas. Where is the Christian Science line going? To the junk pile!

## SHOULD DRINK PRESCRIPTION WHISKY

Peace officers should be warned in time. Drunkenness on three successive occasions will be grounds for their removal under the provisions of a measure enacted by the 38th legislature and signed by the governor. It must be shown that the

LETTER FROM LENORE HAMILTON, conspirator. Sincerely,

ALICE.

MY DEAR MRS. PRESCOTT:

It was awfully sweet of you to think of giving me that lovely historic and priceless desk. It came this morning and I immediately had it unpacked and it now holds the place of honor in the room which contains my wedding garments.

You could not have given me anything that would have made me happier. In the first place, I am over beautiful old furniture or antiques of any kind. That is one thing I presume that you and I have in common. In the second place, the thought that the great-great-grandmother of my great-great-grandmother probably danced with Lafayette, and may have even flirted with him a little, gives me the greatest thrill.

I spent one whole hour this morning—which I should not have done—as John, who is already here, was coming to take me for a motor ride—looking for the secret drawer.

Wouldn't it be wonderful if we should find some letters in it that belonged to Lafayette or even John's great-great-grandmother?

You must assure that I shall keep hunting and I am sure that I shall find that secret place. I feel as you do, however, that I won't have alien hands take the task of piecing to do this. I must find it all myself and I think now that when I do, I shall tell nobody, not even you.

John came last night and, of course, we are both very happy. He is looking forward to your coming with great pleasure. He is not looking quite as well as when I met him in Albany, three weeks ago. He has a little worried wrinkle between his eyes, and every time the doorbells ring, he seems to expect a telegram. But he insists that everything is all right; that he is only nervous and tired. He has just put over a big advertising campaign for which the firm raised his salary to a thousand dollars a year. Isn't that splendid. You and I, however, know that it is only what he deserved.

John is quite as delighted with your gift as I am. He said to me, "Wasn't that sporting of mother?" I believe that next to me she thinks more of that desk than anything else in the world."

And I answered, "Well, next to you, dear boy, I come very near to thinking more of it than anything else in the world."

I am sending you a clipping which appeared in the society columns today. You know everything about my wedding is duly chronicled by some reporter.

Lovingly and gratefully yours,

LESLIE HAMILTON.

CLIPPING FROM THE SHARON DISPATCH

Among the gorgeous and wonderful presents that are being showered upon Miss Leslie Hamilton, who is to be married on the twenty-second, is a desk from the bridegroom's mother—a desk which was given to Lafayette by the first Napoleon and which passed from his hands directly to the great-great-grandmother of the bridegroom. Naturally, with its history and associations, Miss Hamilton regards it as the most beautiful of all her gifts. Mrs. Mary Alden Prescott will arrive here on the twenty-first to attend her son's wedding.

JOHN is quite as delighted with your gift as I am. He said to me, "Wasn't that sporting of mother?" I believe that next to me she thinks more of that desk than anything else in the world."

And I answered, "Well, next to you, dear boy, I come very near to thinking more of it than anything else in the world."

I am sending you a clipping which appeared in the society columns today. You know everything about my wedding is duly chronicled by some reporter.

Lovingly and gratefully yours,

LESLIE HAMILTON.

LAKE CHARLES, La., March 22.—Prospects for Terrell Woolsey, Rotarian, to become district governor at the 1924 Rotary Convention in New Orleans, are highly encouraging, delegates from the club here reported today upon their return from the 1923 district convention in Biloxi, Mississippi. Rotarians and Rotary Annis attending the Biloxi convention were as follows: U. A. Bell, M. P. Pare, W. E. Patterson, C. E. Berdon, T. L. Huber, Vernon Baird, Terrell Woolsey, George Law, H. B. Billis, R. Krause, W. B. Logan, P. W. Kiplinger, Mrs. M. P. Pare, Mrs. Irene Pare Weeks, and Mrs. H. B. Bayliss.

The road between this city and Alexandria, La., is completed, according to announcements made by Floyd Hamilton, assistant state highway engineer. Work will be started on the Vinton-Orange road, through Sabine River swamp, as soon as the state cabinet of highways approved the plans, Hamilton said. This road is a part of the Old Spanish Trail.

Ask me to tell the club the last of next week. I'm sure we can figure out some way of making my sister the recipient of this magnificent gift at that time.

I feel very important—just like a

NOTE FROM ALICE HAMILTON TO KARL WHITNEY

DEAR KARL:

I never was so set up in my life to think that you have asked my help in your dilemma. It makes me understand that at least one can call me a child again. I am glad you did not tell mother, however, for I am sure she would have made Leslie take to the pearls and I know that you would have been heartbroken, as well as Leslie, had Leslie come to hear about it.

Ask me to tell the club the last of next week. I'm sure we can figure out some way of making my sister the recipient of this magnificent gift at that time.

IF BACK HURTS FLUSH KIDNEYS

Drink Plenty Water and Take Glass of Salts Before Breakfast Occasionally

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowls clean, by flushing them with a mild, harmless salts which helps to remove the body's urinous waste and stimulate them to their normal activity.

The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drinks lots of good water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help cleanse and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder trouble.

Jad Salts is inexpensive; cannot injure; makes a delightful after-breakfast drink which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will never have trouble with your kidney troubles and backache. By all means have

## Americans Are Fifth As Outsiders in Paris

PARIS, March 22.—Americans are fifth in the statistics of foreigners in Paris. The list is headed by the Belgians, with 50,500 registered.

There are 25,000 Swiss and 27,000 British.

The number of Americans is given as 25,000, but during the summer this is increased to 45,000 bringing the United States to the head of the list.

There are more actual American residents in Paris than there are Spanish, Russian or Polish. Of the 60,000 Germans who were in Paris before the war there are now only 2,000.

## SUNDAY AMUSEMENT IS BANNED IN SYDNEY

SYDNEY, N. S. W., March 22.—Condemnation of sports and other amusements on Sunday and a plot for a more Christian observance of the Sabbath were contained in a manifesto issued by the Anglican, Presbyterian, Methodist, Congregational and Baptist churches of New South Wales.

The manifesto states that the church leaders view with deep anxiety the growing disposition on the part of many persons to "rob the Sunday of its distinctive character, i.e.,

## NEW YORK FASHION MODELS POSE FOR VERY LATEST EASTER STYLES

Black more is one of the really fashionable materials of the moment. Drape it into a sleeveless model and allow a sash to start at the shoulders and make its way without interference to the hem. Then add a necklace of brilliants.

Here are three appropriate gowns for the three daily changes—morning, afternoon and evening. The smart little suit at the left is of tan tweed and is the sort of an outfit that should occur annually in every woman's spring wardrobe. The afternoon frock of embroidered crepe has an interesting drapery and unusual lines. The sleeveless frock for evening is of orchid satin trimmed only with pearls.

### OLD GLASS PIECES OF GENERATION AGO BEING RETRIEVED FROM OLD ATTICS AS STYLE REVIVES THEM

THIS is the glass age for tableware.

Many Port Arthur hostesses have made trips to their attics and brought down with them those vases and bowls of rich Bohemian glass and water sets and pickle dishes of blue, red or amber glass, that once belonged to their mothers and grandmothers, and are using them with lovely effect in their home adornment.

Without a doubt many of them did not care to have these old-fashioned things about the house and a few years ago they were either given to the laundress or exiled to the attic. Now they are very much in style again and these very pieces which used to worry their esthetic souls are being copied and sold at high prices.

Formerly it was only woman's dress that underwent rapid and complete revolution and change. Nowadays the passion for variety and beauty has extended throughout the house, even to the smallest details of the tableware and necessities of daily use.

Particularly noticeable is the change in tableware. On many dinner plates now there is scarcely any silver to be seen and in its place is the finest of cut glass. Knife rests, salt cellars, cruetts, even the plates and coffee cups are made of glass. The widest scope is thus provided for beautiful workmanship and the luxury-loving woman can set her table in a manner that seriously rivals the magnificence of gold plate.

There are many dinner services of lovely cut crystal—what is known as eamed crystal—colored in exquisite tones of blue and dull orange, and patterned with fruit in numerous designs. These colorings are carried right through the utensils from the largest plate to the tiniest glass.

A large crystal bowl placed on an oval looking-glass makes a charming decorative table center.

Coffee sets are made of artistically tinted glass which resembles alabaster. They are mostly used for holding feed coffee and can be obtained in various colorings.

This kind of glass is especially decorative for toilette purposes, and makes handsome brush and comb trays, as well as pin holders, powder bowls, and other articles which a long while ago were only found in silver and as a consequence added much to the amount of clinking in the home.

The fashion for crystal and alabaster has found its way to the writing-table, where pens, lamp shades, candlesticks and ink stands are all of pottery and possess the attractive quality of being quickly cleaned.

There is a revival in the popular flowing-colored glass and the hostess who has inherited some of her ancestors pieces of this ware, should put them in an honorable place in the decorative schemes of her rooms.

Articles of colored glass introduced on a table where white crystal is used look extremely well. Many hostesses float colored petals in finger bowls to relieve an all-white scheme.

One of the interesting events on the social calendar for Sunday was the charitably sponsored Bridge-Bingo luncheon, held by Fred

## Boosters Hold Second Meet Tonight in Realty Building

Organization of City League May Be Effected; Committees Expected to Report; Conference Open to Port Arthur Public.

By BILL ARCHER

TONIGHT at 7:30 o'clock, the second meeting of the City League this year, and the first since the organization conference earlier in the month, will be held in the Chamber of Commerce auditorium.

The meeting will probably result in the league's organization being perfected.

Reports from the various committees appointed by President George Weddell, discussions as to the feasibility of assessing a minimum charge on spectators, continued discussions of suitable playing grounds, and numerous other findings are scheduled to come before the body during the conference.

Much interest has been manifested in the organization this season, and a large crowd of enthusiasts turned out for the initial meeting. Since that date, the organization of teams conducted by the various clubs interested in the league has gotten under way, and the steps taken by the Texas Islanders, Texas Company, City Team and the Gulf nine will probably be revealed during the pow-wow this evening.

It is understood some of the best baseball material seen in action here in some time will be available this year for the City league, and that in all probabilities four of the best ball aides in the south playing city league baseball this season will be in action in Port Arthur.

The Gulf team was organized shortly after the league was formed, and following close in its wake it is understood, the Texas Company and Texas Islanders have been picking their men. No definite steps have been taken by the City Team, it is understood, although numerous ball players have intimated their willingness to participate in the "pot luck" with this club.

Steps toward the erection of a ball park at the old Lakeshore diamond on Lake Shore drive have been continuing during the weeks that have passed since the first league meeting, and it is understood that if a favorable vote is had on the issue of leasing the tract of land to the Port Arthur Athletic association, the City League and all independent ball nine will have a playing field suitable to the best games.

E. Y. Craig and his associates have been very active in bringing the park issue to a vote, in the event a lease is granted the athletic association, the credit belongs directly to those men. Many ardent boosters of the plan are to be found on every corner, and it is understood the City League without a dissenting vote favors a "decent place where we can have clean athletics."

The meeting tonight is open to any person in Port Arthur interested in boosting local baseball. If you are a booster, drop up and get acquainted. You are a ball player and have just come to town, drop up and get acquainted; you may find a convenient spot to sack a few pills this summer on the old sand lot.

### PIRATES RENEW WORK

HOT SPRINGS, Ark., March 22.—The Pirates will make another attempt today to start the first practice game, cancelled yesterday on account of rain. The Athletics remained indoors for the most part of the day.

### BACK IN CAMP

LEESBURG, Fla., March 22.—The Phillips were back in their camp today after journeying to Bradenton to lose to the St. Louis Cardinals yesterday.

### 'HOLD YOUR MAN' SAYS JAKIE ATZ

FORT WORTH, Tex., March 22.—"Hold your man on the bag," is the theme of the lesson Jake Atz is trying to teach young Panther pitchers he has been working with the last few days. The necessity of holding the runner near the base regardless of circumstances is emphasized by the cat pitcher.

### M'KECHNIE BIG ASSET TO PIRATES

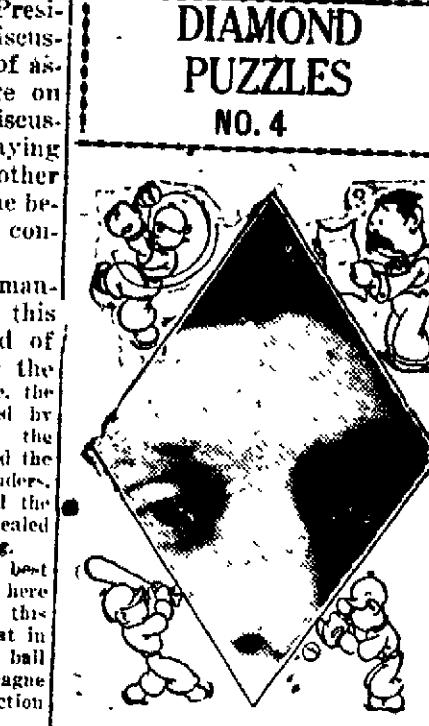

How do they look to you? That is a common expression among baseball fans now that the teams have departed for the south.

In the National League it is only natural for the Giants to rule favorite in the coming pennant race.

The clean-cut manner in which the Cards trounced over the National team last year, the decisiveness of the Yankees in the world series, and the addition of some like-minded recruits make the Giants look like the best bat.

However, there are many hot tips pointing in the direction of the Cards.

Comments about the Pirates have, however, been mixed. Some who have followed the club closely think the Cards are the best team in the country, and others feel the Cards are the best team in the country.

### DIAMOND PUZZLES NO. 4

You identify this baseball player and tell an interesting secret about him? This is one of a dozen "Diamond Puzzles" being printed consecutively in the News. The 12th will be printed Saturday, March 24. Send your answers in before April 1. April 2, to the Sport Editor of The News. Correct answers and prizes will be with Austin College on April 2.

### Expect New Class To Enter University Mat Row This Year

AUSTIN, Texas, March 22—Wrestling will continue during the spring term of the University of Texas, and a new class of approximately 50 freshmen will take up the sport, according to Roy McLean, instructor in wrestling. Coach McLean points out the fact that it is from this class each year that a number of the members of the next year's wrestling team is picked. Two of this year's Conference champions, Ford and Turner, were on last year's freshman team. Prospects are very bright for wrestling next year, since the entire team of this year will be back in school, it is stated. The next wrestling match with another school will be with Austin College on April 2.

### 'A' TEAM BEATEN

MONTGOMERY, Ala., March 22—Comine Mack's "A" team lost to the Milwaukee Brewers, 2 to 0 yesterday, while the "B" team defeated the University of Alabama at Tuscaloosa, 12 to 2.

### REDS VS. INDIANS

LAKELAND, Fla., March 22—Today the Cleveland Indians meet the Cincinnati Reds at Orlando for the third time. The Ohio team will play off their tie of one win apiece.

### NICK OFF DUTY

TAMPA, March 22—Nick Altrock, famous comedian of the Senators, may be missing from the coaching ranks this season. Manager Bush will probably appear regularly at the third base line and Coach Gibson is expected to hold down the opposite corner.

### SELL JACK KNIGHT

Houston, March 22—Announcement was made here today that Jack Knight, star pitcher last year for Galveston, had been sold to the Buffs by the St. Louis Cardinals.

### ARREST RED ROOKIE

ORLANDO, Fla., March 22—Danny Dever, Red rookie, arrested here yesterday at request of Fort Dowell, Calif., authorities for being absent from the team without leave, today returned to practice. The Cincinnati club assumed responsibility for his presence in California when desired.

The meeting tonight is open to any person in Port Arthur interested in boosting local baseball. If you are a booster, drop up and get acquainted. You are a ball player and have just come to town, drop up and get acquainted; you may find a convenient spot to sack a few pills this summer on the old sand lot.

### 1,000 GIRLS TO ENTER HOUSTON FIELD DAY

HOUSTON, March 22—More than 1,000 girls are expected to attend and compete in the girls' athletic meet which will be held at the Rice Institute field here tomorrow. Refreshments will be served.

### BOBBY NAMED CHIEF OF TEXAS GOALERS

AUSTIN, March 22—Bobby Roberson of Dallas was chosen captain of the 1922 basketball team of the University of Texas at a meeting of the eight letter men of this year's team here late yesterday.

### 2 PITCHERS MISSING FROM SPUDS CAMP

WICHITA FALLS, March 22—Spud camp, Young Babe Ruth is laid up with a severe attack of tonsilitis and Ben Upton, the big righthander, has disappeared, and is believed to have gone home for a few days' visit.

### Speed and Skill Features Flyweight Work

NEW YORK, March 22—With Dempsey still scouting for business, and with good heavyweight bouts scarce anyway, the public has turned its attention to another group of fighters—the flyweights.

Only a few years ago flyweights were almost unknown. They were content to pick up the crumbs that fell from the tables of the big fellows. But those days are gone forever.

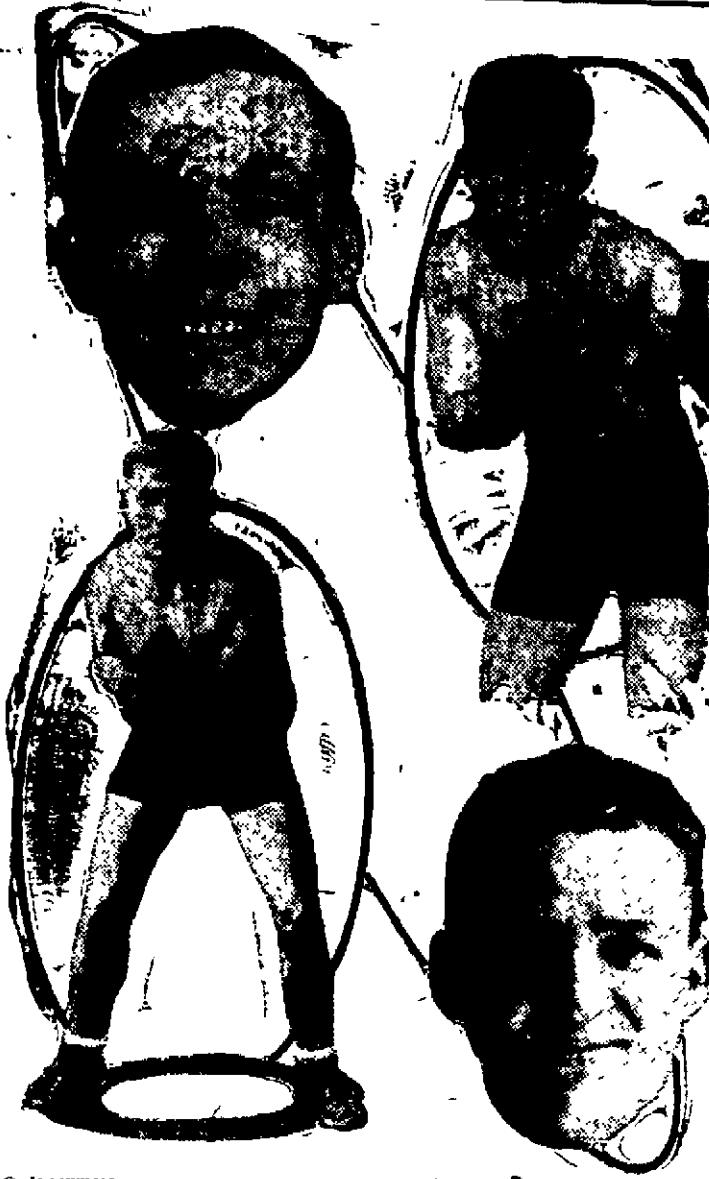

The little fellows—it would take two of them to make a heavyweight—are packing in the cash customers which they show.

These customers would like to see a business conference between Frankie Genaro, who recently took the American title away from hardy Filipino, Pancho Villa, and Jimmy Wilde, of England, who holds, but has not recently defended, the world's flyweight title.

One curious thing about the flyweights is that you rarely will find one with an ingrown face—meaning one that has been turned inside out and been made impossible for even the finest manual to recognize.

These little boys dance about merrily, jabbing each other, inventing all kinds of new dance steps—but rarely leaving indelible imprints on opponents' softer organs.

They invariably are good looking boys.

NO BATTERED FACES DO YOU SEE AMONG THE FLYWEIGHTS. THEIR TAPE STING, BUT DO NOT LEAVE PERMANENT MARKS. HERE ARE TOP ROW, LEFT TO RIGHT, JIMMY WILDE OF ENGLAND, PRESEN WORLD'S CHAMPION, AND PANCHO VILLA, THE FILIPINO. BOTTOM ROW, LEFT TO RIGHT, JIMMY RUSSO, GRAND RAPIDS, AND FRANKIE GENARO, NEW AMERICAN TITLE HOLDER.

### WOMEN STARS MAY PLAY IN CONTESTS HERE

#### Ladies Invited to Compete For Cup

BY HENRY L. FARRELL

NEW YORK, March 22—Since the memorable visit of Suzanne Lenzen two years ago, American girls haven't had a look at anything international in the way of women's tennis.

The need of new color to stir up interest in the woman's game here was shown last summer when the Forest Hills championships were at most a flitter.

Necessity to show new faces in the title match this coming season has led the national association to go after some of the star British girls and it is more than probable that two of three of the English stars will appear at Forest Hills.

The association will not comment more than to admit that the star women players of the other side have been invited to compete for the Wightman cup, a trophy offered by the former Miss Hazel Hotchkiss to take the place of the Davis cup in women's competition.

The cup was offered two years ago but it has never been placed in competition.

Miss Kathleen McLean, Mrs. Bennett and Mrs. Satterthwaite as well as Miss Elizabeth Ryan, the former California girl, are among the British stars who may journey over and play for the cup. Nothing definite has been heard from the other side.

### ROBINS VS. BRAVES

CLEARWATER, Fla., March 22—After failing to meet the Cleveland Indians yesterday through a misunderstanding in the schedule, the Brooklyn Robins were to have a light session today and engage the Boston Braves tomorrow.

### TIGERS FACE AUGUSTA

AUGUSTA, Ga., March 22—The Detroit Tigers will begin a series of exhibition games today when they clash with the Augusta club at Waycross.

### WANT THREE CLUBS FOR WEST, TEXANS

DALLAS, March 22—Three clubs are wanted in the West Texas League.

With the arrival of the Abilene club and vice president of the circuit, who was here yesterday, Abilene, Ranger and San Angelo are ready and anxious to get started as soon as three more teams can be brought in, he said.

### GIANTS TRIM SOX

SEGUIN, Texas, March 22—With Barnes, Neif and Jomard pitching in midseason form and the whole team working like champions, the Giants trashed the White Sox, 4 to 0, the Sox getting only four hits.

### YANKS DROP GAME

NEW ORLEANS, March 22—With mixed team of regulars and rookies, the New York Yankees dropped again before the New Orleans Southern Association club 3 to 2.

### LITTLE SLAMS IN FIVE GOOD RUNS

DALLAS, March 22—C. Little, backstop, slumped in five runs and caught a great game yesterday and is showing satisfaction with the Dallas Steers' future of the Texas State.

## MARKETS

### WALL STREET JOURNAL

**FINANCIAL REVIEW**  
NEW YORK, March 22.—While the main body of the market was quiet yesterday, bullish aggressiveness continued in quite a number of individual stocks.

Considerable irregularity was created in the morning by talk of another boost in the re-discount rate, but the market has never given a better account of itself since the current upswing began than it did when this selling was being absorbed today.

So impressive was the support in recent times that it led to the conclusion that the time of overhauling any distribution of current levels of instant interests were accumulating lines in anticipation of immediate higher prices.

Opening prices on the New York Stock Exchange on the New York Bethlehem B \$91 up 1; Steelman 371 off 2; Studebaker 1234 off 4; Consolidated Gas 654; Pan-American B 751; Gulf Oil 1013 up 1; General Motors 15 up 4; U. S. Rubber 612; Southern Railway 312; Goss 32 up 2; Cuddeback 1653 up 1; Baldwin 412.

Wall Street's late reaction was due to the reports which circulated that the local Federal Reserve had again advanced its rediscount rate after the close. These rumors proved groundless and the market showed a considerable improvement in the early dealings today.

California Petroleum advanced 78 1/2 to 125 1/2; Standard 1 to 103; Baldwin 10 1/2; and other specialty leaders moved in proportionately.

Kelly Springfield opened at a new high for 1923 at 61 1/2. This stock has been performing better than U. S. Rubber partly due to the fact that it earned approximately 37 a share for 1922, while U. S. Rubber showed 26 2/3 cents stock while Rubber showed 26 2/3 cents.

Kelly is expected to resume common dividends by the end of the year. The current earnings show an important increase over the corresponding period of last year.

U. S. Steel 654; Bethlehem B 634 off 1; Republic Iron and Steel 641 off 1; Baldwin 141, off 1; American Locomotive 1534 off 4; Sinclair 314; Maryland Oil 531, up 3; Texas Company 52 up 1; Pan-American 801 off 2; Standard 112 1/2 up 1; General Motors 15 up 4; U. S. Rubber 632 up 2; Kelly Springfield 61; American 1012 off 1; Consolidated Gas 664 up 2; American Ice 109 up 4; Vandium 433; Virginia and Carolina 254; Petroleum 144.

## PROBE OF SUGAR RISE PROBABLE

**Hoover Finds No Justification in Boom**

**WASHINGTON**, March 22.—No justification exists for the recent climb in sugar prices, Secretary of Commerce Hoover declared today in announcing that he had asked the federal trade commission to make an investigation of the sugar market.

"Prices have increased in the face of a world surplus of sugar," Hoover said.

"As I have repeatedly stated, there is no economic justification for the high price of sugar as there is an estimated world surplus," the secretary asserted.

## COST SYSTEMS START APRIL 1

**All City Departments Included in Change**

Cost accounting systems start operating in all city departments after April 1, when the city's fiscal year ends.

Auditors recently turned over to City Clerk E. H. Miles a report on the city's accounts, stocks and stores that will enable the cost accounting system to be set in operation without delay, it is said.

The city commission ordered the system installed in all city departments at the end of the fiscal year, following the recommendation of Finance Commissioner A. A. Poste several months ago.

In making the recommendation, Commissioner Poste pointed out that through the operation of the cost accounting system a complete check on all supplies and materials, as well as expenditures and incomes of money, can be kept in the office of City Clerk E. H. Miles.
